## Discussion points:

- What are we as a profession doing about the Surveying Course closure?
- How can you help to ensure that it will be possible for South Australians to achieve a Degree in Surveying and go on to become Licensed?
- The latest developments with the White Paper.

**These are important topics affecting the future of our profession.**

**The Board of Consulting Surveyors SA would like as many Licensed Surveyors as possible to attend to get broad feedback.**

**Therefore for this event, all Licensed Surveyors attending will be at members' rates.**
